

Embrace facility monitoring

Description

NEVER miss a resident fall again

Have the most effective fall detection and health monitoring system available.

[NEVER MISS A FALL AGAIN -Start your FREE Pilot Program](#)

When undetected falls occur:

- Response is delayed.
- Injury can occur.
- It can potentially mean thousands in lost revenue for your facility.

Preemptive Care Insights

Longer Stays

In-the-room insight without loss of privacy

Simply place the intelligent sensor on the wall and it will automatically detect falls, summon help if needed and collect rich activity data.

No wearables, cameras, or privacy concerns.

Advanced health analytics that monitor:

- Frequent restroom visits
- In & out of bed activity
- Time spent resting
- Nighttime wandering
- Room occupancy status

- **Immediate Fall Detection**

Embrace's intelligent sensor will immediately identify if a resident has fallen and alert your staff, uncovering hidden falls and preventing long lies.

- **Collect Important Data**

Embrace collects rich data on residents' activity which can be used to spot signs of deteriorating physical or mental health.

- **Optimize Staff**

Embrace allows you to reduce the need for routine room visits to optimize staff utilization.
